Cleaning Versatility

Microfiber mops can be used on any number of surfaces, including walls, ceilings, partitions and virtually any smooth, hard surface you need to clean!

Microfiber Tube Wet Mops

- very absorbent
- minimum five times the launderability of traditional yarn mops
- with microfiber, less chemical is required
- the textured finish loosens and holds dirt until washed
- priced competitively with traditional blended looped yarn mop heads, yet out performs traditional mops in both cleaning and durability
- all mops have wide canvas or mesh headbands (as indicated) and tailbands with the blue, green or white microfiber for color coding
- canvas headbands are longer lasting
- mesh headbands are textured for scrubbing

Cleaning for Health

Microfiber is shown to **reduce bacteria levels up to 99%** (according to U.S. Environmental Protection Agency data.) It also uses **95% less water** than conventional cleaning, for faster drying times. And microfiber cleaning products can be used effectively with or without chemicals.

Microfiber Pocket Mop with Long Loop

- large, thick looped microfiber
- can be used for wet or dry cleaning
- pocket mops and hardware offer an alternative to Velcro® systems
- true polyester/polyamide microfiber blend cleans better than competitor's "100% polyester" product
- covers more square footage than short pile threads
- available in four colors for color coding systems

Less Water for Mopping

"Traditionally, an average worker uses up to 21 gallons of floor-cleaning solution for [traditional] string mopping during one shift. With microfiber, the solution can be reduced to as low as two gallons. Because less water is used, there is less liquid on the floor, allowing it to dry faster, which helps reduce the potential for slip-and-fall accidents."

Designed for Ergonomics

Because microfiber works so **effectively**, our mopping systems are lighter and easier to use, creating a **lower risk of injury and fatigue**. A microfiber wet pad, holder and handle **weighs less** than it's conventional counterpart and, with **no need for wringing**, it nearly **eliminates** the need for constant **bending**.

The Mopster™

Outperforms the competition at every level with the innovative features you have come to expect from Impact!

Tired of carrying around a mop bucket or wringing out soggy mop pads? The Mopster™ eliminates the need for all this. It works in any application from house cleaning and maintaining gymnasiums to cleaning hospitals. The Mopster™ is ideal for cleaning areas where conventional buckets and wringers are impractical.

Click-On/Click-Off flow actuator works like a ball point pen to reduce hand fatigue. No need to continually squeeze the trigger.

360 degree rotating handle cap reduces user fatigue and provides smooth figure eight application.

Sliding Handle Hook makes storage simple.

Large, Easy-to-fill, Tethered Cap boasts an integrated hanger to store multiple bottles on maid's cart.

Removable Bottle incorporates a top and bottom cap to assist with clean-outs.

32 Ounce Capacity bottle includes fill level graduations in ml and ounces. Bottle end is threaded for easy removal and cleaning.

Bottle Site Gauge clearly identifies inventory levels to zero milliliters.

All-Stop Ball-valve ensures a positive on and positive off flow control unlike competitors with unreliable pinch valves.

Bilingual Chemical Identification labels provided with every unit.

Private Brand Imprint Area drives brand exposure and a customized look.

Viton Seals ensure confident operation with a variety of heavy duty chemicals.

Heavy Duty Frame and 360° swivel.

Interchangeable components such as the easily assembled frames, mop heads and removable bottles allows the user to stock multiple options on the maid's cart. From damp mopping to dusting, neutral cleaner to disinfectant, and hook-and-loop attaching heads to pockets, every option for every job is at your finger tips!

How to Use the Microfiber Technologies™ System

Cómo usar el sistema Microfiber Technologies™

Cleaning Surfaces

Limpeza de superficies

Remove the presoaked cleaning cloth from container and wring out excess fluid and cleaning agent

Retire el paño de limpieza previamente empapado del recipiente y estruje el exceso de líquido y agente de limpieza

Clean and wipe surface area

Limpe y pase un paño por el área de la superficie

Once area is clean and cloth is soiled, place in laundry bag

Una vez que quede limpia el área y se ensucie el paño, póngalo en la bolsa para el lavado

Dry Dusting

Sacudir el polvo en seco

Use clean, dry microfiber cloth, mitt or duster.

Use un paño de microfibra limpio y seco.

Clean and wipe surface area.

Limpe y pase un paño por el área de la superficie.

Once surface is clean and cloth or mitt is soiled, place in laundry bag. Duster can be used repeatedly and cleaned according to their instructions.

Una vez que quede limpia el área y se ensucie el paño, póngalo en la bolsa para el lavado.

Cleaning Glass or Stainless Steel

Limpiar vidrios

Dampen glass towel with normal tap water.

Humedezca la toalla limpiavidrios con agua corriente de la llave.

Clean the mirror, window, other glass surfaces or stainless steel surfaces with glass cleaning cloth.

Limpe las superficies de espejos, ventanas y otras de vidrio con el paño limpiavidrios.

Once surfaces are clean and glass cleaning cloth is soiled, place in laundry bag.

Una vez que las superficies queden limpias y se ensucie el paño limpiavidrios, póngalo en la bolsa para el lavado.

Dry Mopping

Trapeado en seco

Place dust mop on floor, gray side down. Press mop frame against mop so the Velcro® system fastens.

Ponga el trapeador para el polvo sobre el piso, con el lado gris hacia abajo. Presione el armazón del trapeador contra el trapeador de tal modo que quede sujeto el sistema Velcro®.

Dust floors, beginning at far edge of room and proceeding towards center in figure eight pattern.

Sacuda el polvo de los pisos, empezando en el extremo alejado del cuarto y procediendo hacia el centro en forma de ocho.

Place feet on each edge of dust mop and then pull up or rotate mop handle. Once mop frame begins to pull away from mop, pick up and place dust mop in soiled laundry bag.

Ponga los pies en cada borde del trapeador para el polvo y luego mueva hacia arriba o gire el mango del trapeador. Una vez que el armazón empiece a alejarse del trapeador, recoja y ponga el trapeador en la bolsa para el lavado.

Wet Mopping

Trapeado mojado

Safety Note:
Please use safety signage in areas where you are wet or damp cleaning floors.

Nota de seguridad:
Use letreros de seguridad en áreas donde realice limpieza húmeda o mojada de pisos.

Proceed with pre-moistened mop heads (white side up) to bucket filled with recommended 150-200cc of water and chemical per mop. Press mop so Velcro® system fastens.

Proceda con los cabezales de trapeadores previamente humedecidos (lado blanco hacia arriba) al cubo lleno con 150-200 cc de agua y agente químico por trapeador, según lo recomendado. Presione el trapeador para que quede sujeto el sistema Velcro®.

Begin by mopping edge of baseboard from front to back of room. At far edge of room, begin mopping in recommended figure "8" pattern. Mop restrooms last.

Empezar por trapear las orillas del zócalo de adelante hasta atrás en el cuarto. En el extremo del cuarto, empiece a trapear en la forma de ocho recomendada. Trapee los baños en último lugar.

Place feet on each edge of wet mop and then pull up or rotate mop handle while mop frame begins to pull away from mop. Pull mop from frame and place in soiled laundry bag.

Ponga los pies en cada borde del trapeador mojado y luego mueva hacia arriba o gire el mango del trapeador mientras el armazón empieza a alejarse del trapeador. Saque el trapeador del armazón y póngalo en la bolsa para el lavado.

Commitment to our Customers

The mission of Impact is to provide quality products at competitive prices, while using a team environment to offer superior customer service. We continually strive to maintain our motto “the friendly, flexible company” and do so with the best in people, process, and products.

Commitment to the Environment

Impact is committed to learn and implement practices for a greener tomorrow. Through research and strategic sourcing, we are adding items to our line that will help our customers reduce their carbon footprint and work towards a greener world.

Throughout this catalog, you will find our copyright  symbol. This symbol highlights products that meet one or more of the following criteria:

Composed of earth friendly or recycled materials and/or a recyclable product.

Support recycling programs.

A sustainable or durable product. Sustainable products last longer (vs. disposable) and reduce waste and landfill space.

Reduce the carbon footprint by their use.

Manufacturing process supports a greener, cleaner environment.

Commitment to a Safer Environment

At Impact, “we live what we sell”. Incorporating safe work practices in all Impact facilities with the “STOP for Safety” program from Dupont resulted in a workplace free of injuries of over six years; recently receiving an award from the Safety Council of Northwest Ohio.
